The 4-H Public Speaking project focuses on supporting youth in developing and strengthening their abilities and confidence to speak in front of people. Giving presentations helps develop many life skills including the ability to speak in front of a group, organize ideas, and create and present in 4-H.

**Exploring 4-H Public Speaking**

**Spark Activity: Triple Feature Story Telling**

**Tell a Photo Story**
Storytelling is critical to engaging your audience and helping them retain the information you’re sharing. To practice developing narratives, find an interesting photo online and record yourself presenting a story about it. Discuss what you think the backstory is, who the people are, their dreams, their motivations, and anything else that will tell a compelling story about them.

**Make a Commercial**
Presentations are all about selling an idea, so you should practice the art of sales and persuasion to be the best you can be. Choose an item in your home and create a one-minute commercial about it. Record yourself saying what makes it special, how it can enhance lives, and why everyone needs that item in their corner.
