I joined 4-H because I like science, and I heard that 4-H is big into robotics. I “googled” Illinois 4-H and found the number for my local 4-H office. Within a week, they called back and asked if I wanted to build a robot! Well, yeah. I get together with other kids—some are older and some are younger than me—and we work together until we figure out how to make the robots work. That’s just the kind of job I want to do for the rest of my life. I’ve started on the quest of a lifetime in 4-H. Join me.

Youth 1—There is nothing to do in this town.

Youth 2—I know. It was so boring all summer long. What did you do this summer, Joe?

Youth 3—I learned to grow my own food in a community garden my 4-H club started. We all had a say in what vegetables we planted, and then the leader watched as we worked the ground and planted. It was a busy summer making sure the garden was watered and cared for. The best part … we got to eat what we grew. I gave some of my tomatoes to my next-door neighbor. It’s hard for him to get to the store, and I had plenty to share. He really appreciated it.

Youth 1—Do you think I could come to 4-H or is it all over?

Youth 3—Sure you can. We’re always doing something cool. I’ll come by before the next meeting and pick you up!

Youth 4—You can learn about a 4-H club near you by calling XXX-XXXX.
