Do you like to travel? Do you like to learn about different cultures? What would you like to see in the World? In this project area learn about different cultures and places you would like to visit.

Exploring 4-H Passport to the World
Spark Activity: Where in the World?

Pick a country to study, then look up which one of the fifty U.S. states has a similar population to that country.

Create a presentation documenting the similarities and differences between the identified country and the state based on the following topics:

1. Climate and weather
2. Culture and traditions
3. Food and cuisine
4. Language

Share what you learn through a display, a written report or on an infographic or other digital format.

Once you’ve completed your first country, choose a second one, but this time from a different continent. How many different countries can you explore?
