A leader is a person who inspires groups and identifies and achieves goals in a positive manner. In a 4-H leadership development project, members learn leadership skills including teamwork, communication, organization, goal management, meeting management, team building, decision making and problem solving.

Exploring 4-H Leadership
Spark Activity: Follow My Lead

How easy is it to communicate instructions? Try this activity with a small group of friends or family. Give each person a piece of paper and then read directions to them. This exercise requires listening to and following directions. First, close your eyes. Keep them closed. As you hear the instructions perform the task. You may not ask questions. You must keep your eyes closed. This exercise requires no talking.

1. Fold your sheet of paper in half
2. Tear off the upper right corner
3. Fold your paper in half again
4. Tear the lower right corner
5. Fold your paper in half
6. Tear off the upper left corner
7. Fold in half a final time
8. Tear off the lower left corner
9. Unfold the paper and hold it up
10. Open your eyes, look at your product and compare it with others

- Was it difficult to not ask questions or ask for clarification?
- Even with the same instructions, did everyone’s product look different?
- Was this difficult not having a visual to look at?
- Remember when you communicate with others, they may not receive the message you sent
- People interpret things differently; as a leader, you must communicate a clear message and be open to answering questions. How can you do that?
- Remember leaders demonstrate leadership by being a role model/visual model for others to follow
